

Austria's belligerent attitude in Montenegrin matter it is feared may bring a crisis in European affairs.

THE BISBEE DAILY REVIEW

MEMBER ASSOCIATED PRESS.

Cost of taking Adrianople it now appears was tremendous on all sides with desperate bayonet fighting at end.

VOLUME 15.

BISBEE, ARIZONA, WEDNESDAY MORNING, APRIL 2, 1913

NUMBER 65.

CAIRO IS DESERTED TO FLOOD

Breaking of Levees Causes Belief That Mighty Flood Will Sweep Over City - Residents Leave

DAYTON'S NEED OF MONEY IS GREAT

Columbus Finds Debris Contains Many Bodies - Resists Efforts of Searchers - Typhoid Vaccine Used

CAIRO, April 1.—The breaking of the big Four levees today brought no alarm here, but there is great anxiety for the fate of levees which protect the city proper when the crest of the Ohio flood reaches Cairo. The opening in the big Four embankment is about fifteen wide and the drainage district will certainly fill to a depth of from ten to twenty feet. Many big manufacturing, mail order and lumber distributors are located in the district. The loss, it is said, will not exceed a million.

With the flood waters close to the 54 foot stage, state troops took steps tonight to protect the lives of women and children still remaining in Cairo. Sufficient river steamers were assembled to care for all of them, it is believed. Hundreds of refugees have already left.

DAYTON NEEDS MONEY.

DAYTON, April 1.—Dayton is facing one of the gravest problems that any city in the world has ever faced. We want the people of the world to know we need money, said John H. Patterson, president of the relief committee tonight, after he returned from a tour of the sections swept by the flood.

"At a meeting of bankers tonight it was decided to make an appeal for federal aid," Patterson said. "The banks and building associations have \$60,000,000 assets which will be put up as collateral."

RISE IN LOUISVILLE.

LOUISVILLE, April 1.—The Ohio here showed a stage of 45 feet at 7 o'clock tonight, and is rising steadily. This is a rise of three-tenths of a foot in twelve hours.

DEBRIS HOLDS BODIES.

COLUMBUS, April 1.—Human effort failed today to penetrate the debris piled on the west side, where it is believed the bodies of many persons missing since the flood of March 25, will finally be recovered. Eight more bodies passed through this morning today increasing the dead in that section to 71. In addition to this number, the body of James M. Kearney, a merchant, who was drowned several months ago, was found lodged in a tree when the water receded. That many other bodies will be recovered from the great piles of debris is generally conceded. The property damage in Columbus is confined principally to the west side, the business and manufacturing districts having been almost unscathed.

INDIANA NEARING NORMAL.

INDIANAPOLIS, April 1.—Conditions throughout the flooded districts of Indiana, except in the extreme southern portion of the state, are rapidly returning to normal. Reports today show the waters, which remained stationary for days, have practically disappeared. Homes deserted by owners are being re-occupied.

Relief funds are increasing and all persons who lost homes or furniture in the flood are being cared for.

Many persons in the west Indianapolis flood were treated with an anti-typhoid vaccine today. Dr. V. T. Keane, in charge of the medical relief work in the flooded districts, said he feared no epidemic. He has enough vaccine to treat 10,000 persons.

ANOTHER BLOW AT WOMAN

MILWAUKEE, Wis., April 1.—Milwaukee's ordinance prohibiting women from wearing hats of such length as to be a menace to other persons went into effect today. The ordinance specifies that the hats must be of moderate length and provides a penalty of a \$1 fine or three days in jail for violations of the law.

900 MINERS STRIKE IN OHIO.

ST. CLAIRSVILLE, April 1.—Six hundred miners in the Provident mine of the Provident Coal Co. have gone on strike alleging that the scales used by the company are not correct, and that they are being cheated.

MAY BE NO ATTACK UNTIL LATE IN DAY

From a reliable source it was reported early this morning that the state forces enroute to Naco from Cananea were about nine miles out of Naco, and that the troops trains, repairs of the railroad being made with the advance. The horses of the command are coming overland. If these are awaited, as it is expected, the State troops cannot arrive before Naco until late today, at the earliest.

EXPERT ON BRAINS STRAINS HIS MIND

Dr. Edward Anthony Spitzka.

Eminent brain specialist of world-wide fame has been sent to a sanatorium in the Adirondacks in the hope that he may recover mental balance threatened through over study.

Express Co's. Are Sweating

WASHINGTON, April 1.—Express companies have been hit hard by operation of the new parcel post system, according to statements submitted today to the interstate commerce commission by counsel for the companies in their final arguments against reduction of express rates. It is declared the companies have suffered loss approximating about six per cent of gross revenue.

Walker D. Hines, asserted that the five companies he represented, application of the proposed rates would reduce their revenue about \$25,000,000 annually or 5.5 cents on every dollar worth of business. Such a loss, he said would be destructive. B. F. Fairchild, for the shippers, declared Hines' argument "purely theoretical" and insisted the proposed rates yield ample revenue.

FREE SUGAR IS STICKER

President and Chairman Underwood Hang on This and Wool Tax Features of New Tariff Bill

APPOINTEE MATTERS

WASHINGTON, April 1.—When a conference between President Wilson and Representative Underwood on the tariff question ended tonight, the free sugar plan and a 15 per cent tax on wool were hanging in the balance. Underwood would only vouchsafe the information that "some progress" had been made.

The fight against putting raw sugar on the free list and against retaining the duty on raw wool and over some other parts on the tariff revision, it is understood, led the president to hesitate on committing himself. He will confer on the tariff situation tomorrow.

Recognition of the Chinese Republic and the Philippine question came prominently today before the cabinet. This gave reason to believe that the United States will be the first power to recognize the Chinese republic.

The name of Joseph E. Davies of Wisconsin, secretary of the democratic national committee, was suggested for governor general of the Philippines. The president announced that he will name a young man of progressive type. Davies has already been offered the assistant secretaryship of the war department.

The president received a large memorandum today signed by Prof. Edward T. Divine of Columbia university urging that social legislation be enacted at the coming session.

BATTLE AT NACO EXPECTED TO BEGIN AT SUNRISE THIS MORNING ON EAST AND WEST

Ojeda Prepares for Attack of Overwhelming Forces, but with State Leaders Is Silent as to Plans—Nogales Conference Determined on Attack - All Ordnance and Arms Used at Cananea Will Be Engaged.

U. S. WILL KEEP AMERICANS BACK OF LINE, TO PROVIDE ALL POSSIBLE PROTECTION

State Troops Arrived at San Jose by Train Yesterday from Cananea - Two Car Loads of Ammunition Accompanied - Bracamonte and Men March to Join in Assault - Cananeans Starting Home Are Turned Back

Two trains loaded with state troops which left Cananea yesterday morning at 9:30 were detained in the afternoon at kilometer 24, a short distance south of San Jose station on the Naco Cananea line of the Southern Pacific. At this point the troops from Cananea joined the command of Bracamonte and Calles. Accompanying the troops from Cananea were Colonel Obregon and Calles, and the former at once assumed command of the combined rebel forces, numbering about fifteen hundred men.

On Monday a conference of Obregon, Calles and Bracamonte, who all went to Nogales on Sunday to meet acting Governor Maytorena, resulted in determination to attack Gen. Ojeda and his federal command at Naco without further loss of time and preparation for the assault was begun. Obregon and Calles brought one thousand men out of Cananea with all the equipment used during the three days fighting at that place and all the artillery and small arms captured with Moreno and his command.

Bracamonte has held his command south of Naco during the last two weeks to prevent the escape of Ojeda to the south.

Yesterday after unloading his troops from the train which brought them from Cananea, Col. Obregon divided his forces, sending one command, under Calles around the San Jose mountains so that it might attack Ojeda's position in Naco from the west while Obregon and Bracamonte are planning to simultaneously make an attack from the east.

It will be remembered that Obregon began his recent successful attack on Nogales, Sonora, at one o'clock in the morning and there is a probability that he may repeat this plan at Naco. In any event it is expected that the assault will not be delayed longer than sunrise this morning.

No One May Enter Naco

On this side of the line at Naco Major Reed, in command of the Ninth cavalry is watching conditions very closely with the main purpose of preventing any Americans being shot by keeping them back from the danger zone. It was learned from a gentleman in Bisbee last night from Naco that the main line of the El Paso & Southwestern railroad at Naco will be the dead line, beyond which no American will be allowed to go during any battle that may occur. This railroad line is one quarter of a mile north of the border. Another plan for the safety of the town of Naco is to arrange a line of loaded box cars now at Naco on the side tracks between the American town and the international line.

It is said that the Ninth cavalry boys will also patrol the roads leading into Naco for the purpose of warning all Americans to keep back from all danger. Guards will be placed around the business houses in Naco to prevent any looting or disorder during the fight.

Refugees Back to Cananea

On Monday a number who had come out of Cananea, during and before the battle there last week, succeeded in shipping across the line and returned to their homes in Mexico. Others tried to cross the line yesterday for the same purpose but were prevented from doing so. It is regarded as unsafe now for anyone to return to Cananea or attempt to do so. Some who returned to Cananea on Monday hurried back to the American side yesterday. Those who are in close touch with conditions at Cananea are urging all Americans to remain on this side until there is some guarantee of peace.

No Trains to Cananea

There are no trains reaching Cananea now while the railroad to Nogales is being repaired. There has been no train other than those which brought the state troops from Nogales just prior to the Cananea battle.

A gentleman who came to Bisbee last night from Naco said that a battle is sure, but just when or how it will start no one may say as Gen. Ojeda is keeping his own counsel and it is not possible to learn definitely of the plans of the state troops to the south. Twice Gen. Ojeda has gone out from Naco during the last two weeks to give battle to the state troops under Bracamonte and Calles, but whether he will feel justified in leaving his fortified barracks again cannot be surmised.

Plenty of Ammunition

It was learned yesterday that Obregon brought two cars loaded with ammunition when he brought his troops from Nogales and that he has an abundance to supply his men during a siege of several days at Naco, should such be required in subduing Ojeda.

Ojeda Complacent

Gen. Ojeda takes the situation complacently and says that he is ready for any sacrifice and that if they take him it will be when they are few to surrender. He disputes the report that his men are dissatisfied and says there is not a man in his garrison today but who will die with him in defense of the Mexican government if needs be. "All I can say is that I would rather fight them in the open," he said this afternoon. "I know they think I will retreat to the American side, but I will never do such a thing until there are none left but me, unless the United States troops compel me to do so. I mean to defend this garrison and the honor of the Mexican government with every drop of blood in my body if I am not hampered by the United States troops or any other cause."

EXTEND TIME

NEW YORK, April 1.—The date of arbitrators' decision in demands of the Brotherhood of Locomotive Firemen and Enginemen against eastern railroads has been extended to April 24.

SCHWAB IS CHAIRMAN.

NEW YORK, April 1.—Chas. M. Schwab resigned today as president of the Bethlehem Steel Company to become chairman of the board of directors of the same company. E. G. Grace was elected president in his stead. Schwab's new office was created for him.

FOR FLOOD SUFFERERS

SAN JOSE, April 1.—The Peninsula Railway company today donated the use of four of its Carson and Santa Clara street car lines to raising funds for flood sufferers. Each of the cars were "manned" by two girl conductors.

GREEK MEMORIAL SERVICES

WASHINGTON, April 1.—Memorial services for the late King George of Greece will be held tomorrow in various cities of the U. S. about the hour the body will be buried at Athens.

CLOSE IN LINE FOR PAPAL SUCCESSION

Top, Cardinal Merry del Val; bottom, Cardinal Falconio.

There is a strong chance that Cardinal Diomedes Falconio, an American citizen, will receive serious consideration by the papal conclave for election to the papacy in case Pope Pius should succumb to his present illness. Falconio was born in Abruzzi, Italy, educated in the Franciscan order, and sent to America in 1882 as a missionary. He was naturalized in 1893. He has been apostolic delegate to this country since 1902.

Cardinal Merry del Val is a Spaniard, and papal secretary. He also is a leading candidate for the papacy.

CHARGE SENATOR WITH BRIBING

N. Y. Solon Refuses to Resign When Alleged Extortion Scandal Is Aired by Corporation Head

MANY ARE INVOLVED

ALBANY, April 1.—Accused of attempted extortion by George H. Kendall, president of the New York Bank Note company, Senator Stephen J. Stillwell, of New York, refused today to resign on the suggestion of Governor Sulzer. He demanded a thorough investigation of the charges and the senate ordered an inquiry.

Senator Stillwell, who is chairman of the codes committee, introduced among other stock exchange reform measures a bill designed to relieve the New York Bank Note company from alleged discrimination on the part of the New York stock exchange, which it is claimed, refused to list securities printed by the New York Bank Note company.

In a telegram to Governor Sulzer, Kendall alleged that Senator Stillwell charged him \$250 for drafting a bill and that the senator demanded \$500 each for four members of the senate codes committee to report the bill out of committee and made a further demand of \$1500 to influence the assembly on the codes committee report. Kendall said he declined to comply with these requests.

OPEN LINE JULY 4.

New Spokane Route Will Make Celebration a Big One.

SPOKANE, Wash., April 1.—July 4 will be celebrated in Spokane by the formal opening of the Chicago, Milwaukee and St. Paul's new line, with a ceremony that will bring President A. J. Earling, Percy Rockefeller, John D. Lyman and a group of New York financiers interested in the road. Announcement that the Milwaukee will operate its first passenger train into Spokane Independence day was made by J. H. Hilland, of Chicago, vice president in charge of passenger traffic; F. A. Miller, of Chicago, passenger agent, all of whom were in Spokane this week. Chicago, Milwaukee & St. Paul officials plan to have a public celebration, in which Governor Barnett, Mayor of Washington, Mayor William J. Hindley of Spokane, and representatives of all live organizations of Spokane may participate. The railroad company has spent millions to enter Spokane and to secure ground and buildings for a passenger station.

ROME PAYS TRIBUTE TO MORGAN—SERVICES TODAY

ROME, April 1.—A simple funeral service will be held over the body of J. Pierpont Morgan tomorrow. The services will take place in the room in the hotel where the body now rests, surrounded by great masses of flowers.

Only relatives and intimate friends of the family, among them Ambassador Thomas J. O'Brien and Mrs. O'Brien, will attend the service, which will be conducted by Rev. Nelson, of the American church.

The death of Morgan has caused an impression which has become profound as time passes. Everywhere flags are flying at half mast. This is particularly noticeable at art institutions, where Morgan took deep interest.

Amundsen Is Looking For Ice

EUGENE, Oregon, April 1.—There will be not a trace of Peary or Cook at the North Pole, when I reach there a few years from now," said Roald Amundsen, the explorer, in an interview here today. "I do not believe there is any land there, but I expect to find a great sea of floating ice."

Explorer Amundsen intends to drift across the pole. It may take him five years and he will take along with him two hydroaeroplanes which are now being made at San Francisco to be used to rise above the mists for purposes of astronomical observations.

WILL WAIT NO LONGER

Austria with Squadron and Troops Ready to Bombard Montenegrin Port - Crisis Is at Hand

COST OF ADRIANOPLE

VIENNA, April 1.—Part of the Austrian squadron is reported to have reached the Montenegrin port of Antivari, and the remaining vessels are held in reserve at Cattaro. Transport with 3000 infantry abroad accompany the warships. It is understood unless the siege of Scutari is raised by tomorrow, a naval demonstration will begin.

SOFIA, April 1.—According to an official report at Bulgarian army headquarters the capture of Adrianople cost the Bulgars from 10,000 killed and wounded and an expenditure of 1200. The Bulgars made prisoners of 40,000 soldiers, 2,000 other officers and 60,000 soldiers. The Bulgarian besieging forces numbered 120,000 men, with 350 guns. The Servians numbered 40,000 with 98 guns.

The Turks had 200 siege guns and from 450 to 500 field pieces.

CETTINJE, April 1.—Montenegro answered the latest demand of the powers regarding the withdrawal of civilians from Scutari by stating that army headquarters had refused, for military reasons to permit the transmission to the commandant of the beleaguered town of a cipher dispatch from his government.

The Montenegrin government, however, offered to submit to the head quarters request for transmission of a message in plain language, a reply to the powers previous note, Montenegro expresses regret that she is unable to deter to their wishes and cease hostilities Scutari and in the territories allotted by the powers to Albania.

PIMA COUNTY PAYS ADVERTISING COSTS

TUCSON, April 1.—At its regular April meeting, the first of next week, the county board of supervisors will probably make their annual appropriation for advertising the county and its resources. For several years this appropriation has been made.

The county's appropriation heretofore has been turned over to the chamber of commerce, which has expended it in its work of advertising the county's resources. Last year the sum of \$2,500 was appropriated and in addition to this amount the chamber of commerce also received by the immigration commissioner, W. A. Julian, his salary for the year, amounting to \$600 which the commissioner donated to the chamber for the advertising fund. This totaled \$3,100 given to the chamber of commerce by the county which is about half or perhaps a little more than half of the total working fund of the chamber of commerce.

LAWMAKERS BEHIND WITH THEIR WORK

Governor Keeps Own Council Regarding Intentions of Calling Another Special Session.

HOUSE IS WELL UP WITH ITS DOCKET

House Agrees That Basis of Mine Tax Bill Shall Be on Combination of Gross and Net of the Product.

PHOENIX, April 1.—Although no one but Governor Hunt knows what action he will take in reference to continuing the legislature by calling a fourth special session, there is every indication tonight of such call before the end of the week.

Those who are best posted read between the lines of an effort which has been successful on the part of the anti-Hunt forces to put the administration in a hole and put the executive where he will either have to be a disappointment to hundreds of tax payers and authorize the extra session with all of the great expense which goes with it or run the state for a time without funds for various state institutions.

The governor is at the parting of the ways and he must choose either to continue the session which has in the past sixty days accomplished little or take a stand that economy dictates that a stop be called and the session returned to their homes. As one administration man put it tonight it is possible that more could be accomplished if the session was reconvened next July when Phoenix weather is not quite so pleasant.

Every one admits that some one is to blame that the work has not been accomplished, but where to attach the blame is not so easy. On the face of matters the senate and not the house have been dilatory with their work. Of the thirty-eight bills relating to the code the senate has passed and sent to the house twenty-five of them and the house has considered them all and returned them to the senate and in addition have considered thirty code bills first brought in to the house and sent them to the senate, none of which have been returned to the house.

The senate has passed the appropriation bill and sent it to the house, but its consideration will be only a matter of half a day, so it is plain to see the house is ready for adjournment.

That the lower branch will adjourn whether work is up or not seems probable when the pay of members stops next Thursday night.

The house this afternoon agreed to an appropriation for road purposes in the amount of \$400,000. The senate finally approved the insurance code.

There was no action in either house on mine taxation bills but the house ways and means committee has agreed that gross and net earnings, in certain percentages should be a basis of valuation.

REWARD FOR CURE

SACRAMENTO, April 1.—A joint resolution calling upon congress to investigate the Friedman tuberculosis remedy and other cures produced by scientists and make an appropriation with which to reward any one who discovers an effective means of combating the disease, was passed by the senate today.

WRONGED GIRL SHOT ON DEMANDING REPARATION

JACKSON, Tenn., April 1.—Miss Esther Derry, daughter of Mr. and Mrs. R. W. Derry, of DeWitt, Tenn., is at a hospital in that town suffering from a gunshot wound alleged to have been inflicted in a duel last night with R. McCommon, for whom the police are searching. Miss Derry says she appealed to McCommon to force his son to make amends for the wrong he had done her, and the elder McCommon shot her.

STRIKE GROWS SERIOUS.

AUBURN, April 1.—The cordage strike situation, involving 1700 operatives of the International Harvester company and Columbian rope shops, became acute today when 11 persons were hurt in riots.

GOTCH STILL CHAMPION.

KANSAS CITY, April 1.—Frank Gotch retained the wrestling championship of the world tonight by defeating George Litch, the Russian, in two straight falls.
